Cab area / standard height	Up to 15 sq. ft. / 80 inches
Interior features	LED lighting, floor indicator, illuminated buttons

Equipment and product imagery: Wurtec residential elevator systems.

Additional selections include alternate cab heights, front/back or 90-degree entrances, custom cab sizes, automatic sliding doors, and optional battery-powered lowering. Availability depends on the selected system and approved project design.

Plan the space early.

Coordinate the shaft, pit, overhead, entrances, structural support, and electrical provisions before construction. Capital Elevator can review your drawings and help define the elevator scope.

Type 1L / 1R

Type 2

Type 3 / 4

Type 5

PRELIMINARY LAYOUT DIMENSIONS | INCHES, WIDTH x DEPTH

Cab size	Type 1L / 1R	Type 2	Type 3 / 4	Type 5
36 x 48	50 x 55.75	50 x 58	51.25 x 56.75	51.25 x 54.5
36 x 54	50 x 61.75	50 x 64	51.25 x 62.75	51.25 x 60.5
36 x 60	50 x 67.75	50 x 70	51.25 x 68.75	51.25 x 66.5
40 x 48	54 x 55.75	54 x 58	55.25 x 56.75	55.25 x 54.5
40 x 54	54 x 61.75	54 x 64	55.25 x 62.75	55.25 x 60.5
44 x 48	58 x 55.75	58 x 58	59.25 x 56.75	59.25 x 54.5

Confirm before building. Dimensions above are reproduced from the supplied manufacturer brochure for preliminary coordination only. The source lists both 6-inch and 8-inch pit requirements. Final pit, overhead, clearances, capacity, and electrical requirements must follow approved project-specific drawings and applicable code.

From plans to everyday use.

Residential elevator installation with local service support. We work with homeowners, general contractors, and architects to coordinate equipment selection, installation, and ongoing care.

01 Plan & select

Review drawings, access needs, cab finishes, and equipment options.

02 Coordinate & install

Align the elevator scope with the builder and project schedule.

03 Maintain & support

Plan preventive maintenance and service for continued operation.

LET'S DISCUSS YOUR RESIDENTIAL PROJECT.
